VCARD

Carie has created, implemented, and enhanced accounting processes and systems in a variety of environments including a multinational corporation, nonprofit organizations, and a family wealth management company. Her attention to detail and strong organizational skills have allowed her to ensure the integrity of book, tax, and investment records and create and maintain new systems and procedures.

Carie has also produced regular financial statements, established charts of accounts, created accounting policies and procedures, analyzed actual versus budget variances, recorded and monitored accounts receivable and accounts payable, and performed a variety of other accounting roles throughout her career.
