Cynthia is responsible for the accounting, information technology, facilities, human resources, and operations of the firm. In addition to managing Fahrenheit's day-to-day functions, she provides technical and project support on advisory engagements. Her background includes developing and managing accounting departments, financial systems evaluations and implementations as well as international and mergers and acquisitions accounting roles. She is a member of Fahrenheit's Leadership Team.

During her career, Cynthia has served as CFO at consulting and consumer products companies. She also spent nearly 12 years within the corporate accounting and finance division of a Fortune 500 financial services company, finishing her time there as director of SEC and regulatory reporting. Her experience also includes working as a CPA in the audit department of a large accounting firm and as director of audit at a local firm.
