Corine provides accounting, analyses, consulting, budgeting, process improvement, and financial reporting expertise to privately-owned and public companies within various industries. With over 20 years of experience in accounting and finance, she helps clients manage accounting functions and provides insight into their financial operations. She began her career with a Big 4 accounting firm, providing audit and tax services to clients ranging from Fortune 100 corporations to small businesses and non-profits. She then worked for a large auto manufacturer as an Internal Auditor, testing controls and recommending process improvements.

Corine has held accounting & finance roles within the telecom industry and with a venture capital firm, managing accounts payable, company budgets, and facilities management. For over 10 years, she worked as Controller for a global wholesale distribution business, and then a global manufacturing company. Within these roles, she helped create accounting processes and procedures, managed accounting month-end close, cash management, accounts receivable, accounts payable, payroll, prepared financial management reports, and served as a key resource for information sharing and process training.
