Amy is a highly collaborative and innovative financial controller consultant with a proven track record of executing and delivering results within fast paced environments. She brings over 30 years of experience maximizing and improving financial processes in an array of industries including, automotive retail, construction, and insurance where she has been responsible for the forecasting, budgeting, analysis and reporting of financial information. Amy is further skilled in reconciliations, month-end, quarterly, and year end processes, as well as inventory management, cash management, accounts receivable, accounts payable, and payroll.

Amy began her career with a Big 4 Accounting firm with clients ranging from Fortune 100 corporations to small businesses and non-profits managing the annual audit and tax processes while testing controls and recommending process improvements with an external CPA firm.
