Possessing a diverse range of expertise in accounting, financial reporting, general ledger, benefits accounting, process improvement, and project management, Wanda assists her clients in improving both the accuracy and efficiency of their finance and accounting functions.

Wanda started her career at a large international public accounting firm, and later transitioned into various managerial corporate accounting roles, primarily in the consumer products industry. She has successfully led several special projects including accounting and budgeting system design and implementation, SOX Compliance, workflow process design, and back office consolidation.
