As an innovative problem solver and accounting and finance professional, Nikki is an experienced Accounting Consultant focused on helping clients improve financial efficiencies. She excels in all aspects of accounting processes including analyses, process improvement, payroll, close process, budgeting, and growth strategies.

With over 15 years of experience, Nikki provides accounting expertise across a vast array of industries including transportation, property management, construction, retail, manufacturing, and various service industries for both privately-owned and public companies. Her ability to quickly learn systems and assist with software conversions while ensuring data integrity allows her to advise her clients on the most efficient path forward.
