Liz has a broad range of industry experience, ranging from healthcare and nonprofit organizations to small organizations, where she provides a full breadth of accounting and finance skills to enable management to maximize business results.

Liz began her career in public accounting then moved into financial management roles for various healthcare organizations before expanding into other industries. She has managed various departments including accounting, reporting, accounts payable, human resources and budgeting; providing the organizations with actionable tools to manage the business. She particularly enjoys working with smaller companies to help them understand their business, building reports and budgets that allow them to better control their company finances.
