Stephen has over 25 years of experience as a CFO with several privately owned middle market companies and as a CFO Consultant. He is a pragmatic and results-oriented financial executive with a distinguished career as a key advisor, analyst, and strategic resource, providing support and direction in management roles with companies in multiple industries.

Stephen has a record of excellence and innovation by collaboratively partnering with executive leadership in financial analysis, budgeting, financial reporting, asset management, turn-around strategies, and the development of financial, operational, and strategic plans and programs. As a CFO Consultant, he has advised commercial businesses seeking to build strategies to boost profits, improve cash flows and enhance business value. He is experienced in building and leading initiatives that position organizations for substantial and sustained growth.
