With over 10 years of experience as an accounting and finance professional across a variety of industries, Katie brings deep experience in financial reporting, public offerings, technical accounting, standards implementation and the control environment for publicly held companies. Katie works with clients to determine appropriate accounting of complex transactions and to help bring their financial results together to tell the story of the last quarter, year, or other reporting period.

Katie worked for a large public "Big 4" accounting firm, before transitioning to a technical accounting role and later managing the financial reporting process at a Fortune 500 insurance company. Katie has led accounting standard implementations, including the new revenue and lease accounting standards. She also has experience designing control processes and key controls.
