Kathy is a highly experienced finance and accounting professional with extensive expertise across various industries and roles. Her broad perspective, leadership skills, collaborative nature, and positive outlook make her an invaluable asset to any project team. Kathy has served as CFO for companies in manufacturing, healthcare, nonprofits, services, and state and local governments, where she has demonstrated expertise in financial, business, and system analyses, audit prep, training, negotiation, project management, and system implementations.

In addition to her financial expertise, Kathy has led technology organizations as a Chief Information Officer. She has driven technological advancements and implemented robust IT strategies to support business goals and enhance operational efficiencies, showcasing her ability to lead technology initiatives cost-effectively. With her comprehensive skill set and proven track record in both finance and technology, Kathy is uniquely positioned to provide strategic insights and drive success for any organization she partners with.
