

LISA BRADSHAW

Managing Director

VCARD

Lisa has a broad range of expertise in accounting, financial reporting, auditing, treasury, risk management, and control in manufacturing. Lisa has 20 years of experience as a Controller and CFO of a privately held international manufacturing company. Throughout her career she has always been a hands-on financial executive with a focus on operational excellence.

Lisa began her career in public accounting and then transitioned to Controller and ultimately as CFO in the manufacturing industry. Lisa has been responsible for all aspects of finance and accounting, including transactional accounting, financial and management reporting, processes, internal controls, treasury, and M&A. She has also worked with and managed teams within the human resources and information technology departments. Lisa has recently led the due diligence process on a divisional divestiture to private equity and later led the due diligence process of the sale of a \$300 million international company to private equity.
