As an innovative accounting and finance professional, Donna has the unique ability to utilize over 20 years of experience for a variety of companies, both small and large. Because she can leverage her experience in areas such as accounting, financial reporting, budgeting, and process improvement, she can quickly identify areas in need of improvement and implement solutions. Through her succinct ability to assume responsibility, she provides stability and reliability for the business owners and organizations for which she has served.

Donna began her career in the insurance industry, starting as an auditor and quickly moving into the private sector for a large multi-specialty insurance company. She moved on to various accounting and finance roles with other large employers in the food manufacturing and used auto retail industries, where she gained valuable experience in financial systems implementations, process improvements, budgeting, and financial reporting.
