As an innovative accounting and finance professional, Donna leverages over 20 years of experience across various companies and industries with diverse ownership structures. Her expertise in accounting, financial reporting, budgeting, and process improvement enables her to swiftly identify areas needing enhancement and implement effective solutions, particularly in accounting system implementations. Through her succinct aptitude for assuming responsibility and understanding business processes, she instills trust and confidence in the business owners and organizations she serves.

Donna began her career in the insurance industry as an auditor before transitioning to the private sector with a large multi-specialty insurance company. She then held various accounting and finance roles with major employers in the food manufacturing and used auto retail industries, gaining valuable experience in financial system implementations, process improvements, budgeting, and financial planning and reporting. Recently, Donna has specialized in both the private equity and non-profit sectors, leveraging her corporate background to enhance stability and improve efficiencies in accounting processes and procedures for her clients.
