Dave has over 25 years of extensive experience leading a wide range of financial and accounting functions across many industries including information technology, financial services, telecommunications, and commercial real estate. As an experienced CFO and Controller, Dave has expertise in budgeting, financial planning and analysis, KPIs, GAAP, monthly financial close procedures, process improvements, and controls and compliance.

Throughout his career, Dave has demonstrated success in formulating and executing business strategies, driving growth, and instilling a financial discipline enabling organizations to achieve financial commitments and business objectives. Dave began his career as an Auditor in Public Accounting before transitioning to operational accounting and finance roles in both the public and private sectors.
