With over 10 years of Controller experience in a variety of industries, Mari is a proven, collaborative leader providing full accounting cycle management, budgeting, financial analysis and projections, and process improvement to her clients. With a strong focus on delivering on-time, accurate, and targeted reporting specifically tailored to the company's leadership, she helps companies gain a better insight into their company's financial operations.

Mari's portfolio of industry experience includes real estate investment, electronic manufacturing, property management, private education, wholesale distribution, and car rental management. With these diverse, hands-on opportunities, she has helped to identify areas of operational, efficiency improvement in collaboration with other departments.
