Catherine is a seasoned CFO and controller consultant with extensive strategic planning, process development and improvement, budgeting, financial reporting, compliance, and systems implementation expertise in privately held companies. Catherine's experience spans across multiple industries working effectively with all organizational levels to achieve business goals.

From 1995 to 1998, Catherine held a pivotal role where she led cross-functional teams through complex organizational changes, consistently delivering results that exceeded expectations. Her ability to navigate ambiguity, foster collaboration, and drive strategic initiatives positioned her as a trusted advisor to both internal stakeholders and external partners. Catherine's deep understanding of business dynamics, combined with her hands-on leadership style, makes her exceptionally well-equipped to guide our clients through their most critical challenges and opportunities.
