[VCARD](#) | [LINKEDIN](#)

Catherine is a seasoned CFO and controller consultant with extensive strategic planning, process development and improvement, budgeting, financial reporting, compliance, and systems implementation expertise in privately held companies. Catherine's experience spans across multiple industries working effectively with all organizational levels to achieve business goals.

She began her career in manufacturing, where she spent more than 10 years at one company expanding her experience as the business grew from a local company to an international manufacturer with two US and one Canadian locations. She later transitioned into financial services, healthcare, and landscaping construction.
