With more than 20 years of experience, Christian is a strategic, hands-on finance executive who partners with management teams and private equity sponsors to strengthen financial discipline, build high-performing finance organizations, and improve decision-making within complex operating environments. With deep expertise across financial planning and analysis, reporting, controls, and operational finance, he helps clients assess the effectiveness of their finance and accounting functions, identify capability gaps, and implement scalable processes that support sustainable value creation.

Over the course of his career, Christian has held senior finance leadership roles within public and private-equity-sponsored manufacturing organizations, leading businesses ranging in size from approximately \$150 million to \$1.1 billion in revenue and working across multiple manufacturing sectors and operating models. His experience spans enterprise finance transformation, M&A integration, ERP and data modernization, and the development of finance teams that operate as true business partners to operations, executive leadership, and private equity sponsors-supporting integration, operational improvement, and exit readiness.
