[VCARD](#) | [LINKEDIN](#)

Jack Cornwell is an experienced accounting professional who helps organizations strengthen their finance functions, improve visibility into performance, and maintain compliance in complex operating environments. With hands-on leadership across full-cycle accounting, reporting, and internal controls, he brings a practical, solutions-oriented approach that enables clients to scale with confidence and clarity.

Jack has built his career supporting organizations across healthcare, nonprofit, and professional services environments. His background includes leading accounting operations for a pharmaceutical consulting company, supporting budgeting and financial planning within higher education, and delivering bookkeeping, tax, and advisory services in public accounting. He is known for his ability to adapt quickly, work across multiple stakeholders, and identify meaningful process improvements that drive both efficiency and accuracy.
