Brittany Jackson is a strategic human resources leader with more than 15 years of experience helping organizations strengthen leadership, workforce strategy, and organizational effectiveness during periods of growth, transformation, and change. Her background spans HR business partnership, talent acquisition, total rewards, talent management, employee relations, organizational design, change leadership, and project management. She has worked across healthcare, insurance, financial services, and other complex multi-site and global organizations, giving her a broad perspective on the business and people dynamics that shape evolving enterprises. Brittany also brings meaningful experience supporting mergers, acquisitions, and integrations, helping organizations navigate transitions, maintain continuity, and position teams for future success.

Known for connecting strategy to execution, Brittany brings a thoughtful, grounded, and energizing approach to complex workforce and leadership challenges. She is particularly effective in environments that call for strong executive partnership, sound judgment, and people solutions that support both business priorities and organizational health. Colleagues value her ability to build trust quickly, bring structure to complexity, and lead with clarity and intention.
